The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>			
<p>NOTICE OF APPEAL</p> <p>2. <input type="checkbox"/> The Notice of Appeal was filed on _____.  Arnel C. Lavaras Patent Examiner Group Art Unit 2872			

Continuation of 3. NOTE: The proposed amendments to the claims require further consideration and search of the available prior art, particularly since the proposed amendments to Claim 1 alter the scope of those claims dependent on Claim 1.

Continuation of 11. does NOT place the application in condition for allowance because: Applicants' remarks and arguments are acknowledged, however, they were not found persuasive. Additionally, Applicant's remarks and arguments are partly drawn to proposed amendments to the claims, which have not been entered into the record. In addition to the response to arguments made in Section 5 of the Office Action dated 11/7/05, the Examiner additionally notes that the invention recited in Claims 1 and 32 merely requires a 'light-transmitting protective film'. All of the disclosed examples of Arakawa et al. allow light to be transmitted through the protective film, particularly at the claimed roughness values. This is further evidenced by Applicants' own declaration submitted 4/29/05 (See especially Table 1 of the submitted declaration). The Examiner also notes that Applicants' appear to be equating 'light-transmitting' with 'transparency'. However, light transmitting properties and transparency properties of a film are two totally different properties, and transparency properties are not claimed in the recited invention.
